

How to access encrypted emails or files using Egress Switch Secure Email

As an Egress Switch Secure Email recipient, you can read secure messages and access encrypted files quickly and easily. You are not required to download or install any software to read a Switch Secure Email, although desktop and mobile apps can be downloaded free of charge from www.egress.com.

Stage One: Opening a Switch Secure Email – New user

As a first-time user, you will need to create an Switch account. This is a one-time process that only takes a few minutes to complete. **If you already have a Switch account, you can progress to Stage Two.**

1. Click on the **read this secure email** link within the notification email you received.

2. In the web browser that opens, select the **New User?** link to create your Switch account.

To access the secure message **LB-160212-110255** please sign in with your Switch ID.

If you do not have a Switch ID, [create it for free](#). This will only take a minute and will be required **once**.

Switch ID:

Password:

Remember my Switch ID

[Sign In](#)

[New User?](#)
Create a Switch account. It's free.

[Forgot Your Password?](#)
Reset your Switch password.

Learn more about Switch.

3. Enter your details in the window that opens. **You must use the email address that the Switch Secure Email was sent to in order to open the message.**

Sign Up

1 Please enter your details below to create a new Egress Switch user account.

Email (Switch ID):*

First name:* **If you have received a secure message, use the email address where you received it as your ID.**

Last name:*

Phone number:

We will not contact you unless you forget your password and security questions

Email me about product updates and services from Egress

4. Create a password to access the account. Use the dropdown menus to select suitable security questions and specify answers to them. Please note, the answers to your security questions will be used in the event that you need to reset your password.

2 Choose a strong password to protect your identity.

Password:*

Confirm password:*

Minimum 8 characters, with at least 1 lower case and either 1 upper case / number

Question #1:

Answer #1:*

Question #2:

Answer #2:*

I have read and agree with the [Egress Privacy Statement](#)

Create Account

An activation code will be sent to the email address you used to register for your Switch account. If you do not receive your activation code within 5 minutes, please check your Junk or Spam folder.

5. Copy the code into the **Activation code** field and select **Submit Activation Code**.

Activation code:*

Submit Activation Code

6. A new window will open once you have completed the sign-up process. Select **Read your message now** to view the secure message.

Important note: Egress Switch is an information security product. While every precaution has been taken to ensure the highest level of security and integrity of data at all times, you should be extra vigilant for suspicious activity and never write down or share your Switch account credentials with anyone.

Stage Two: Reading and replying to a Switch Secure Email

1. Once you have registered for a Switch account, you can access Switch Secure Emails by selecting the **read this secure email** link displayed in the notification email.
2. Enter your credentials into the web browser that opens and select **Sign in**.
3. Once registered or signed in, you can access the secure email and any attachments. In addition to the message body and attachments, you will also be able to see:
 - The sender's details
 - The date and time the secure email was sent
 - The subject line

4. To reply to a secure email, click **Reply** or **Reply All** as appropriate. Compose your response, add attachments and other recipients if required, and select **Send**.

Important note: Egress Switch is an information security product. While every precaution has been taken to ensure the highest level of security and integrity of data at all times, you should be extra vigilant for suspicious activity and never write down or share your Switch account credentials with anyone.

Stage Three: Accessing large files

You can use Switch Secure Email to send and receive large files securely. If you receive a Switch Secure Email containing file attachments:

1. Select the link in the notification email.
2. Enter your credentials into your web browser and select **Sign In**.
3. In the opened Switch Secure Package you will see two buttons:
 - **Open Online:** This opens the package in Switch Web Reader. You will see the attached files listed beneath the sender's details.
 - **Download:** This downloads the encrypted '.switch' message (you need to [download the Switch Client software](#) to use this option). Select an attachment and then select the download button to download it to your computer.
